### **Procedures**

The 10% Photo Marathon is a competition for digital photographs that will take place on Sunday 7th July 2024 in Sirmione (BS) from 7:30 to 8:30 a.m.; the meeting point will be at 7:00 a.m. in Piazza Carducci.

Participants will have one hour to interpret the theme assigned by the panel of judges, which will be announced at 7:00 am. As well as the theme, the panel may specify any characteristics that the photographs in the competition must have (e.g. colour or black and white, proportions and/or other).

Any pictures taken with digital equipment (SLR cameras, compact cameras and mobile phones) are allowed in the 10% Photo Marathon.

Participants can only submit one photograph for the assigned theme, by the deadline, and must register on the website [www.sirmionefotografia.it](http://www.sirmionefotografia.it), participate in the 10% Photo Marathon (registration is free of charge) and follow the instructions for uploading their photographs.

The panel of judges reserves the right to change the number of themes and photographs to be submitted. These changes may also be announced on the day of the 10% Photo Marathon.

The pictures submitted for the competition must be taken exclusively during the 10% Photo Marathon, i.e. on the day and at the times when the marathon is taking place, otherwise they will be excluded from the competition.

### **Themes**

The organisers will communicate the themes on the day of the competition.

### **Technical features of the photos**

The photographs sent must be exclusively in JPG format.

The dimensions of the photographs (number of pixels on both sides) must be the maximum permitted by the camera used (without reductions or scaling) and be complete with all the original EXIF data of the shot, under penalty of exclusion from the competition.

The images mustn't contain white borders, signatures or recognizable logos, name of the participant written in digital watermark, signature on the photo or any other univocal sign of identifications.

The Jury will accept images optimized and personalized according to the taste and style of the author but not distorted compared to the original appearance at the time of shooting.

In no case will images be accepted in which key elements of the composition have been added or removed or obtained from consistent cuttings of larger shots, as well as photocompositions, photomontages, double exposures not obtained directly during shooting or in any case processing heavily influencing the appearance and content of the images.

Specifically, are allowed:

- colour to black-and-white conversion;
- tones adjustment (high lights and shadows, hardness and softness);
- adjustment of sharpness, brightness, contrast and saturation;
- adjustment of the color profile used;
- straightening of the horizon;
- the use of filters physically placed in front of the camera (polarizers, cross-screen, soft focus and similar)
- the use of "digital filters" contained in the most popular image processing software available to the public, to vary the color tones of the images, give color casts, imitation effects of chemical images or other similar ones.
- particular techniques, such as Tilt&Shift, Dragan effect, HDR, Focus Stacking etc.

Tools based on generative AI models that introduce new functions to enlarge, enhance, insert unrealistic elements into images are not allowed.

Each participant must keep the originals of the shots, whether in Raw or JPG format, which the Jury reserves the right to request viewing; failure to produce the original will result in exclusion from the competition.

The Jury will have the right to reject any image that has been, in its sole discretion, overly retouched to the detriment of the integrity of the content and meaning of the original image.
